section 112(a)(1) to carry out this section to local educational agencies within the State as
follows:

(1) Thirty percent.—Thirty percent shall be allocated to such local educational agencies
in proportion to the number of individuals aged 5 through 17, inclusive, who reside in the

compared to the total number of such individuals who reside in the school districts served
by all local educational agencies in the State for such preceding fiscal year, as determined

determining eligibility under title I of the Elementary and Secondary Education Act

(B) student membership data collected by the National Center for Education Statistics

(2) Seventy percent.—Seventy percent shall be allocated to such local educational
agencies in proportion to the number of individuals aged 5 through 17, inclusive, who
reside in the school district served by such local educational agency and are from families
below the poverty level for the preceding fiscal year, as determined on the basis of the

(B) include local educational agencies without geographical boundaries, such as charter schools and secondary schools funded by the Bureau of Indian Affairs.

(b) Waiver for More Equitable Distribution.—The Secretary may waive the application of subsection (a) in the case of any eligible agency that submits to the Secretary an application for such a waiver that—

(1) demonstrates that a proposed alternative formula more effectively targets funds on the basis of poverty (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) to local educational agencies within the State than the formula described in subsection (a); and

(2) includes a proposal for such an alternative formula.

(c) Minimum Allocation.—

(1) In general.—Except as provided in paragraph (2), a local educational agency shall not receive an allocation under subsection (a) unless the amount allocated to such agency under subsection (a) is greater than $15,000. (1) In general.—Each eligible agency shall distribute the portion of funds made available under section 112(a)(1) for any fiscal year by such eligible agency for career and technical education activities at the secondary level under this section to the appropriate area career and technical education school or educational service agency in any case in which the area career and technical education school or educational service agency, and the local educational agency concerned—

(A) have formed or will form a consortium for the purpose of receiving funds under this section; or

(B) have entered into or will enter into a cooperative arrangement for such purpose.

(2) Allocation basis.—If an area career and technical education school or educational service agency meets the requirements of paragraph (1), then the amount that would otherwise be distributed to the local educational agency shall be allocated to the area career and technical education school, the educational service agency, and the local educational agency based on each school, agency or entity’s relative share of students who are attending career and technical education programs (based, if practicable, on the average enrollment for the preceding 3 years).

(3) Appeals procedure.—The eligible agency shall establish an appeals procedure for resolution of any dispute arising between a local educational agency and an area career and technical education school or an educational service agency with respect to the allocation procedures described in this section, including the decision of a local educational agency to leave a consortium or terminate a cooperative arrangement.

Such funds may not be reallocated to individual members of the consortium for purposes or programs benefitting only 1 member of the consortium.

(g) Data.—The Secretary shall collect information from eligible agencies regarding the specific dollar allocations made available by the eligible agency for career and technical education programs and programs of study under subsections (a), (b), (c), (d), and (e) and how these allocations are distributed to local educational agencies, area career and technical
education schools, and educational service agencies, within the State in accordance with this section.

(h) Special Rule.—Each eligible agency distributing funds under this section shall treat a secondary school funded by the Bureau of Indian Affairs within the State as if such school were a local educational agency within the State for the purpose of receiving a distribution under this section.

(3) Consortium requirements.—

(A) In general.—In order for a consortium of eligible institutions described in paragraph (2) to receive assistance pursuant to such paragraph, such consortium shall operate joint projects that—

(i) provide services to all postsecondary institutions participating in the consortium; and

(ii) are of sufficient size, scope, and quality to be effective.

Such funds may not be reallocated to individual members of the consortium for purposes or programs benefitting only 1 member of the consortium.

(4) Waiver.—The eligible agency may waive the application of paragraph (3)(A)(i) in any case in which the eligible institution is located in a rural, sparsely populated area.

(b) Waiver for More Equitable Distribution.—The Secretary may waive the application of subsection (a) if an eligible agency submits to the Secretary an application for such a waiver that—
(1) demonstrates that the formula described in subsection (a) does not result in a distribution of funds to the eligible institutions or consortia within the State that have the highest numbers of economically disadvantaged individuals and that an alternative formula will result in such a distribution; and

(2) includes a proposal for such an alternative formula.

(c) Minimum Grant Amount.—

(1) In general.—No institution or consortium shall receive an allocation under this section in an amount that is less than $50,000.

(2) Redistribution of amounts returned late in an academic year.—In any academic year in which amounts are returned to the eligible agency under section 131 or 132 and the eligible agency is unable to reallocate such amounts according to such sections in time for such amounts to be expended in such academic year, the eligible agency shall retain such amounts for distribution in combination with amounts provided under section 112(a)(1) for the following academic year.

(c) Construction.—Nothing in section 131 or 132 shall be construed—

TITLE III—GENERAL PROVISIONS

PART A—FEDERAL ADMINISTRATIVE PROVISIONS

(a) Supplement Not Supplant.—Funds made available under this Act for career and technical education activities shall supplement, and shall not supplant, non-Federal funds expended to
(b) Maintenance of Effort.—

(1) Determination.— Except as provided in subparagraph (B), (C), or (D), in order for a State to receive its full allotment of funds under this Act for any fiscal year, the Secretary must find that the State’s fiscal effort per student, or the aggregate expenditures of such State, with respect to career and technical education for the preceding fiscal year was not less than the fiscal effort per student, or the aggregate expenditures of such State, for the second preceding fiscal year. Except as provided in subparagraphs (B) and (C), no payments shall be made under this Act for any fiscal year to a State for career and technical education programs or tech prep programs unless the Secretary determines that the fiscal effort per student or the aggregate expenditures of such State for career and technical education programs for the fiscal year preceding the fiscal year for which the determination is made, equaled or exceeded such effort or expenditures for career and technical education programs for the second fiscal year preceding the fiscal year for which the determination is made.

(B) Computation.—In computing the fiscal effort or aggregate expenditures pursuant to subparagraph (A), the Secretary shall, at the request of the State, exclude competitive or incentive-based programs established by the State, capital expenditures, special one-time project costs, and the cost of pilot programs.

(C) Decrease in federal support.—If the amount made available for career and technical education programs under this Act for a fiscal year is less than the amount made available for career and technical education programs under this Act for the preceding fiscal year, then the fiscal effort per student or the aggregate expenditures of a State required by subparagraph (A) for the preceding fiscal year shall be decreased by the same percentage as the percentage decrease in the amount so made available.

(D) Establishing the State baseline.—For purposes of applying subparagraph (A) for years which require the calculation of the State’s fiscal effort per student, or aggregate expenditures of such State, with respect to career and technical education for the first full fiscal year following the date of enactment of the Strengthening Career and Technical Education for the 21st Century Act, the State may determine the State’s fiscal effort per student, or aggregate expenditures of such State, with respect to career and technical education for such first full fiscal year by—

(i) continuing to use the State’s fiscal effort per student, or aggregate expenditures of such State, with respect to career and technical education, as was in effect on the day before the date of enactment of the Strengthening Career and Technical Education for the 21st Century Act; or

(ii) establishing a new level of fiscal effort per student, or aggregate expenditures of such State, with respect to career and technical education, which is not less than 95 percent of the State’s fiscal effort per student, or the aggregate expenditures of such State, with respect to career and technical education for the preceding fiscal year.
(2) Failure to meet.—

(A) In general.—The Secretary shall reduce the amount of a State’s allotment of funds under this Act for any fiscal year in the exact proportion by which the State fails to meet the requirement of paragraph (1) by falling below the State’s fiscal effort per student or the State’s aggregate expenditures (using the measure most favorable to the State), if the State failed to meet such requirement (as determined using the measure most favorable to the State) for 1 or more of the 5 immediately preceding fiscal years.

(B) Special rule. – No such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waiver.—The Secretary may waive paragraph (2) due to exceptional or uncontrollable circumstances affecting the ability of the State to meet the requirement of paragraph (1) such as a natural disaster or an unforeseen and precipitous decline in financial resources. No level of funding permitted under such a waiver may be used as the basis for computing the fiscal effort or aggregate expenditures required under this section for years subsequent to the year covered by such waiver. The fiscal effort or aggregate expenditures for the subsequent years shall be computed on the basis of the level of funding that would, but for such waiver, have been required. The Secretary may waive the requirements of this section, with respect to not more than 5 percent of expenditures by any eligible agency for 1 fiscal year only, on making a determination that such waiver would be equitable due to exceptional or uncontrollable circumstances affecting the ability of the eligible agency to meet such requirements, such as a natural disaster or an unforeseen and precipitous decline in financial resources. No level of funding permitted under such a waiver may be used as the basis for computing the fiscal effort or aggregate expenditures required under this section for years subsequent to the year covered by such waiver. The fiscal effort or aggregate expenditures for the subsequent years shall be computed on the basis of the level of funding that would, but for such waiver, have been required.
